CATALOGUE AND PRICE-LIST

1886.

FALL AND WINTER.

1887.

THE object of this book is to give information about goods, and to tell the prices of them. We have tried to do that in the best and shortest way—recognizing the fact that people do not want to read through a page of history to find the price of a single article. We have used cuts whenever possible as they convey a much better idea of the styles of the various articles than could possibly be given in a written description. We want to do everything in our power to aid our out-of-town friends in making their selections with as much ease and satisfaction as if they were here in person.

We do not call attention to the merits of any particular department, for it is our aim to make each one the best store of its kind in existence, and all of them have our direct personal supervision. Our prices are such that our customers cannot be dissatisfied on that point. Our goods are new and fresh and of the very best and latest styles. Anything purchased of us can be returned, if not satisfactory, and money will be refunded. *We guarantee satisfaction*, so you run no risk in ordering from us.

If we did not *know* our goods and prices would stand comparison with any other house in the country we could not afford to make those terms.

BULLENE, MOORES, EMERY & CO.

DIRECTIONS FOR ORDERING.

PLEASE READ CAREFULLY SO AS TO AVOID DELAYS.

Do not send Postal Notes, they are not safe. Send money by Post-Office Order, Registered Letter, or Draft on New York. Checks on local banks are always subject to discount.

Goods ordered to be sent by mail must be accompanied by a remittance covering cost of merchandise and postage. In sending orders unaccompanied by remittances, we would particularly request customers to state how goods are to be sent, whether we hold money due you, or if goods are to be sent C. O. D., or charged. If the latter, and you have never had goods charged here before, kindly furnish us with satisfactory Kansas City references.

Goods will be sent C. O. D. by express, when desired, but cannot be sent C. O. D. by mail.

By remitting in advance for payment of goods, customers will save the charges of the express company for returning money to us on C. O. D. packages.

Express companies object to taking C. O. D. bills if less than \$5.00, and for that reason none will be sent for less than that sum. In no case will C. O. D. bills be sent to distant and out-of-the-way places, unless a deposit is made to secure us in the express charges, and as an evidence of good faith.

Goods can be sent by mail at 1 cent an ounce to any post-office in the United States.

No package can be sent by mail over four pounds in weight.

Packages can be registered for 10 cents each, *in addition* to the regular rate of 1 cent per ounce. Registered packages are considered absolutely sure.

Postage must always be sent if the goods are to be mailed. Should too much be sent, balance will be returned.

Please remember that the prices in this Catalogue are for the goods *in our house*, and that the mail, express or freight charges must be paid by the customer.

Our manner of doing business is strictly *one price*. Please remember this. We make no deviation from this rule for any one.

When goods ordered are all sold and are not procurable, we invariably substitute the nearest we have, and send subject to approval.

The receipt of all letters is acknowledged within twenty-four hours. Should parties not hear from us in proper time, they may conclude that their communication has not reached us, and would oblige us by sending a duplicate letter or order, mentioning the previous one, and giving date of mailing, contents, etc. We can then give your order attention, and at the same time trace the missing letter.

A FEW COMMON SENSE RULES.

Always sign your name. Give correct address—Town, County and State. Write the name and address plainly.

When you order Gloves, Corsets, etc., state sizes.

Make your order plain, and save errors.

Should you ever return anything for credit or exchange, *write your name on the outside of the package*. We can then tell who it is from and act accordingly.

When you order goods from samples, *do not remove* the ticket showing price and width, but *attach it and the samples selected* securely to your order.

Make all inquiries and requests for samples on a separate sheet of paper. We can then send one to the Corresponding and Sample, and the other to the Shipping Department.

NEVER order any goods "like I had before," or "like you sent Mrs. So-and-so." We receive so many orders daily that it is utterly impossible to remember the goods sent on previous orders. Always send samples or describe the article desired.

Remember that orders for Ladies' or Men's Clothing, to be made to order, must be accompanied by a deposit or references.

SAMPLES.

Before sending us an order for samples please read this carefully:

We make no charge for samples, but in ordering them, customers should inclose stamps to pay postage.

Ladies, in order to secure exactly what they want, should be very careful to write clearly, giving kind of goods, the colors wanted, and about the price they wish to pay. If you do this we can fill your orders promptly and intelligently, otherwise it will be impossible for us to do so.

Please return samples as soon as you have made your selections from them.

SILKS.

According to our custom, we take pleasure in expressing our views with regard to probable demand for Silks, as compared with other dress materials. Our latest advices from Paris and New York are to the effect that silk will be very popular during the season of 1886—87. One proof of this is the fact that there has been an advance of from 10 to 20 per cent. in the price of silks, and the indications are that they will be still higher before the season is far advanced. The stock of manufactured silks in Lyons, Crefeld and Horgen is smaller, while the demand promises to be greater than it has been for the past two or three years. The advance in silks does not effect us, however, and will not effect our customers. We import our own silks direct, and placed our orders with the manufacturers last year, at a time when we were enabled to get the very lowest figures. It can readily be seen what a great advantage this gives us—an advantage which we propose to share with our customers. A glance at the prices given here will prove this. Striped Silks, Satins and Velvets will be very popular this season for combination purposes, and for trimming. We will cheerfully send samples to any address, free of charge, and only ask our patrons to be as explicit as possible in stating kind of silk wanted, also color, and about the quality desired, that we may be able to fill all orders with entire satisfaction.

COLORED DRESS GOODS.

WE HAVE SECURED for the season of 1886-7 the largest and most complete stock of Colored Dress Goods ever brought to the West. We can show you the latest productions of the French looms, and the newest and most popular Parisian Novelties.

While the tendency is in favor of Stripes in everything, yet the dictates of fashion are not as strict as usual—one proof of this is, the great variety of new styles shown. So abundant and varied are they, that ladies will be afforded an opportunity of indulging their own tastes, guided by the rather broad rules laid down by the Fashion Magazines.

The new Dress Materials are so attractive, that they will not only satisfy the most exacting demands for practicality and simplicity, but will prove a delight to artistic eyes. Notwithstanding the recent advance in the price of Woolens—an advance of from 20 to 25 per cent—our prices will continue the same. The selling price of an article is regulated by the cost. We placed our orders for these goods before the advance in prices, consequently did not suffer by it, and as we consider our customers' interests our interests, and we are content with a fair, legitimate profit, we have marked these goods exactly the same as if there had not been any advance since we bought them.

We will cite one proof of this: The latest advances are to the effect that there has been an advance of 25 per cent. in the price of Cashmeres; we continue to sell them at the same price. Our 46 INCH CASHMERE, considered a bargain at \$1 00 before the advance, we offer for \$1 00 now.

LADIES' GLOVES.

We have often wondered why Dame Fashion seemed to neglect that very important part of a ladies' dress—the Gloves; and while the styles changed regularly in everything else, the glove remained about the same.

The few novelties that found their way to the glove counters did not seem to meet with much favor with the ladies. The season of 1886-'7, however, is destined to change all this, and hereafter the glove will keep pace with other articles of dress in the matter of fashion. One reason—and the principal one—why the new styles shown this season are received with so much favor, is because they are standard brands, made by responsible manufacturers, whose goods have a world wide reputation, and can consequently be relied on for style, durability and fit.

An ill-fitting, badly-shaped glove will spoil the effect of the finest and most artistic costume; so we repeat, we consider the glove one of the most important articles of dress, and have selected our stock accordingly.

The new styles and novelties come in such standard brands as "Marion," "Delorme," "Berton," and others—gloves that we can guarantee to give satisfaction in every particular.

We mention a few of the styles: Black stitched with white, or vice versa; finished at wrist with a band of kid same color as stitching. Then we have black stitched and finished with tan, red or gold; black stitched with fancy colors, tan stitched and finished with black and self-color; also, tan stitched with fancy colors. All the stitching is heavy and adds more to the style of the glove than we thought possible, the general effect being to make the hand look smaller.

In ordering Ladies' gloves, state size; for Children and Misses' gloves, age or size.

DRESSMAKING.

Our three Dressmaking Departments were never in a more prosperous condition than at present, and for several reasons we are better prepared than ever to supply our lady friends and patrons with fashionable costumes. In the first place, our Artists have spent more time abroad this year visiting the great Fashion Centres of the World, remaining late enough to get all the Autumn and Winter styles. Then the wide range of fashion this season enables an Artist with originality and skill to continually improve on even the very latest Paris models. Our stock of Dress materials, too, is larger, and includes a greater variety of styles than heretofore. Remember every costume is cut and finished under the direct supervision of the Lady Manager of the department in which it is made; every piece of work is carefully inspected before it is allowed to leave the department; in fact, everything possible is done to insure satisfaction in style, fit, finish and workmanship. It has taken time, hard study, and the expenditure of large sums of money on the part of the ladies intrusted with the management of our Dressmaking Departments to acquire the reputation they now enjoy. They cannot afford to risk that reputation by allowing a single Dress to leave their departments that will not stand the closest scrutiny, and the most searching criticism. Of course, each one has some special branch in which she is particularly skilled.

MRS. McGUIRE,

Who needs no introduction to American ladies of fashion, cannot be surpassed in the designing and making of fine costumes. Her Bridal and Evening Dresses have made her famous. They can be seen in all the great Fashion Centres of the country, East and West, and are admired everywhere for their originality of design—no two made exactly alike, unless by special request of the customer—fine workmanship and artistic finish.

MRS. DEXTER'S

Great specialty is fine Street and Traveling Dresses. Her fine costumes are also much admired. The Dresses designed by her are Models of Artistic Skill, and we can safely say she has no superior in the country in the designing and making of stylish, serviceable costumes that can be worn on all occasions.

MISS McCAIN

Has taken charge of one of our Dressmaking Departments, and her high reputation as an artiste insures its success under her management. She has just returned from the East, where she has been for some time, visiting all the great fashion centers, and gaining information it would be impossible to acquire at home. She is now prepared to give her customers the benefit of her knowledge. Every time a dress leaves Miss McCain's department she gains a permanent customer, because she allows nothing to leave her work room that is not first-class in every particular.

NOTE.—Samples and estimates furnished, and any information asked for cheerfully given, on application.

EMBROIDERIES AND LACES.

Our stock of Embroideries and Laces is so large, and comprises such a variety of styles and patterns, that it would be impossible to illustrate it intelligently—besides, we do not deem it best to carry a large stock of any particular pattern, as that would prevent us from securing the new styles as they appear. Our object is to keep our stock new and fresh at all times, never having so much of any one pattern as to endanger its becoming too common. We simply show a few illustrations to indicate the general style of the goods classed under that heading. If our customers would state what they want the trimming for—about the width desired, and the price they wish to pay, leaving the selection to us, we promise to use our knowledge of the goods and styles for their benefit, and will **Guarantee Satisfaction** in every instance.

BUTTERICK'S PAPER PATTERNS AND PUBLICATIONS.

In ordering Patterns always give size, or name the age wanted.

We are agents for Butterick's Patterns, and receive new styles as issued every month. These patterns are so well known that it is unnecessary for us to say any thing about them.

Ladies ordering samples would do well to inclose stamps for Butterick's new catalogue. They can then order their patterns with the dress goods, and know exactly how to make them up.

BUTTERICK'S PUBLICATIONS.

"THE DELINEATOR," a Monthly Magazine illustrating European and American fashions, contains representations of all the *latest styles* and novelties in Ladies', Misses' and Childrens' Fashions, with full descriptions of new goods, new styles, new trimmings, and practical articles on subjects connected with dress. Terms, post paid by us: The Delineator (monthly), \$1 per year. The Delineator (single copy), 15 cents.

"THE QUARTERLY REPORT OF METROPOLITAN FASHIONS." This Publication is issued in March, May, September and November; each number includes a handsome Chromo Lithographic Plate and a Magazine containing a description of the Plate, and other items of interest. "The Quarterly Report" and Plate per year \$1 00. "The Quarterly Report" and Plate, single copies, 40c.

CARPET DEPARTMENT.

CARPETS, CURTAINS, CURTAIN GOODS, UPHOLSTERY, AND FINE FURNITURE.

We have given special attention to this department, and we have no hesitation in claiming that the stock is the largest and most carefully selected that we have ever been able to offer you. In carpets we have all grades, from a good 2-ply carpet at 30c per yard up to the finest Wilton or Axminster, in the very latest designs and colorings. It would be impossible for us to give a description of all the different designs, and we will not describe a few, because that would to a certain extent deprive our customers of the benefits of our immense stock and great variety of patterns.

We ask our patrons to leave the selection to us, promising to use our knowledge of these goods for their benefit, and send the best and most desirable carpet that can be purchased for the amount you wish to pay.

Our stock of Curtains and Curtain Goods is new and fresh, comprising everything desirable in the curtain line.

We also wish to call attention to the fact that we make a specialty of

ARTISTIC HARD-WOOD FURNITURE.

(See next page.) We make from special designs Hard-wood Mantles, Hall Seetles, Diningroom Tables and Sideboards and odd pieces of Library, Diningroom and Parlor Furniture.

We have constantly in stock many odd shapes and designs in Parlor Furniture that we upholster to order in covering to harmonize with carpets and draperies.

We have also various styles and shapes in Chairs—Rattan and Hard-wood Rockers and Easy Chairs, Hard-wood Diningroom Chairs—all of them in new, odd and artistic designs. We invite correspondence with regard to this department.

CARPETS.

If you will give us instructions on the following points, we can in nearly every case send you a Carpet that will meet your approval: The colors wanted, the style preferred, the kind of Carpet (wool, hemp, Brussels, etc.), about the price you wish to pay; the size of room, and, if you will also state what the room is used for (bed-room, parlor, etc.), it will aid us in selecting a suitable design. Carpets will be matched, cut, baled and delivered at Kansas City depot free of charge. Sewing or making, 5c per yard extra for 2-ply, 3-ply, Tapestry or Body Brussels; 10c per yard for Velvets, Wilton and Axminsters. NOTE.—Make your order explicit, and give measurements with care.

LINENS.

We import our Linen goods direct—buying them from the manufacturers for cash, and in such quantities as enables us to get special prices, not only on the goods, but also special freight rates, so that we can sell *you* Linens cheaper than some houses buy them, and yet make a fair profit. The quality of our Linens is unsurpassed. We have selected a few of the most desirable patterns for illustration. Remember there are others just as new and choice, but for want of space we cannot do more than call attention to them. See cuts of **John S. Brown & Sons' Cloths**, on next page. These lovely goods come in a variety of patterns, and in all grades, from \$1 00 to \$6 00 per yard. Every housekeeper knows that John S. Brown & Sons' Linens are superior to all others, not only for washing and wearing qualities, but because of the exquisite patterns and beautiful finish. They are little more expensive than the common yard goods, and are far preferable, especially for presents.

Our stock of Blankets and Comforts is now complete, and we are ready for the Fall and Winter trade with the largest stock, and best assortment that we have ever been able to offer you. Not only is our stock the largest and most complete, but — notwithstanding the advance in all woolen goods — especially blankets — our prices continue low, and will so continue until our present stock is all sold, then it will depend entirely on the market whether or not we will be compelled to advance the price. If we had to buy these goods now we could not offer them to you at the prices quoted here, and the indications all point towards a still further advance.

BUCKSKIN UNDERWEAR.

These garments afford thorough protection against the chilling winds so prevalent in the West, repelling cold, and retaining the warmth of the body without the aid of a *heavy cumbersome overcoat*.
 Being perforated, they do not retain the moisture of the body. They are comfortable in a warm room, and comfortable in the chilling air beyond any other garment that can be worn.
 Being worn over flannel of sufficient weight to absorb perspiration, they can be worn a season without cleansing.
 In sending orders, take measure around chest for shirt and vest, and for drawers, waist measure, and length from hip to ankle.

The department is under the management of a gentleman who has devoted his life to his business, himself a practical cutter and fitter of many years experience. Our cutters are artists of ability, and good taste, who could not risk their well earned reputation by allowing anything to leave the house that was not a *perfect fit*. Our stock is larger and more complete than ever, comprising *everything new and desirable* in the line of Gentlemen's Suitings. When you consider the quality of the material used, the superior workmanship, finish, and style of the garments made by us, you will acknowledge that our prices are very reasonable—in fact extremely low.
